Contra Costa Big Picture

COVID 19 In the World & in Our Community

February 23, 2021	Contra Costa County (1,100,000)	California	United States	World
Positive	60,996	3,450,058	29,287,282	111,430,000
Deaths	626	49,563	498,993	2,460,000
Vaccine Doses Administered	273,778	7,581,560 CDPH Vaccine Dashboard	65,032,083 cdc.gov/coronavirus/2019-nCoV/vaccines/	212,150,000 https://ourworldindata.org/coronavirus

Who is Eligible?

Distribution Phases at a Glance

Phase 1A

- Healthcare workers (tiers 1, 2, 3)
- Employees & residents of long-term care facilities

Dec. - Jan.

Phase 1B

- People ages 75 and over
- People ages 65 - 74
- Frontline essential workers

Started January

People ages 16 - 64 with high-risk health conditions

Estimated March 15

All people ages 16 years and older not in previous phases

Estimated Summer

March 15th, 2021 Vaccine Distribution Guidance

- Beginning March 15, healthcare providers may use their clinical judgement to vaccinate individuals age 16-64 who are deemed to be at the very highest risk for morbidity and mortality from COVID-19 as a direct result of one or more of the following severe health conditions:
 - Cancer, current with debilitated or immunocompromised state
 - Chronic kidney disease, stage 4 or above
 - Chronic pulmonary disease, oxygen dependent
 - Down syndrome
 - Immunocompromised state (weakened immune system) from solid organ transplant
 - Pregnancy
 - Sickle cell disease
 - Heart conditions, such as heart failure, coronary artery disease, or cardiomyopathies (excludes hypertension)
 - Severe obesity (Body Mass Index ≥ 40 kg/m²)
 - Type 2 diabetes mellitus with hemoglobin A1c level greater than 7.5%

OR

- If as a result of a developmental or other severe high-risk disability one or more of the following applies:
 - The individual is likely to develop severe life-threatening illness or death from COVID-19 infection
 - Acquiring COVID-19 will limit the individual's ability to receive ongoing care or services vital to their well-being and survival
 - Providing adequate and timely COVID care will be particularly challenging as a result of the individual's disability

Making an Appointment to Get Vaccinated Through CCHS

Phone: 1-833-829-2626

www.coronavirus.cchealth.org/get-vaccinated

Health Plans.
Friends. Community members.
Neighbors. Heroes.

**Vaccines are no-cost and have no implications for public charge.*

I completed the vaccine appointment request form — now what?

Form submitted & request approved

Receive an email with instructions for MyChart

Schedule appointment with MyChart

It may take several days to approve a request & appointments are limited. Thank you for your patience.

A COVID-19 vaccine is one of the most important tools to end the COVID-19 pandemic. A safe, effective, no-cost COVID-19 vaccine will be available to everyone in California. The vaccine paired with other daily health habits, such as wearing face coverings and social distancing, will slow the spread of COVID-19 so businesses and schools can fully reopen and we can return to a more normal way of life.

Frequently Asked Questions

- All vaccine sites are accessible for mobility and sensory impaired—All ADA accessible
 - Notify the vaccine schedulers at appointment center of special needs and accommodations will be made. Expect to be placed on a wait list
 - West County: Richmond Auditorium is preferred site for mobility impaired
- Transportation may be a barrier, let schedulers know and they may be able to provide solutions
- Early arrivals will not be seen early. If you need to arrive early, expect a wait.
- The vaccines do not affect fertility or child bearing capacity.
- Vaccines do not contain live virus, do not make you ill or contagious with COVID 19
- NO CHIPS in any vaccine
- Masks will still be necessary

What is the role of vaccines in our community?

Multiple Layers Improve Success

The Swiss Cheese Respiratory Pandemic Defense recognizes that no single intervention is perfect at preventing the spread of the coronavirus. Each intervention (layer) has holes.

“There is increasing data to suggest that schools can safely reopen,” Rochelle Walensky, CDC Director [said](#), adding that “safe reopening does not suggest that teachers need to be vaccinated in order to reopen safely.”
