BLOODBORNE PATHOGENS TRAINER APPLICATION FORM

Contra Costa County Environmental Health is the local enforcement agency that enforces the California Safe Body Art Act. This law gives the requirements for Bloodborne Pathogen and Exposure Control Training, one of which is that any person offering training must be knowledgeable in exposure control and infection prevention in a body art facility and be approved by the local enforcement agency. In order to be approved as a body art bloodborne pathogen and infection control trainer, please complete the application below and submit it to this Division with a required fee of \$398.

Body Art Bloodborne Pathogen Training Checklist

The following are the requirements for the bloodborne pathogen training for body art practitioners. To be approved, a trainer must meet all of the following requirements:

- Trainer approved by local enforcement agency and is familiar with exposure control / infection prevention in body art facility.
- Training is specific to body art.
- Training is at least 2 hours.
- Training does the following:
 - ✓ Training provides a copy and explanation of the Bloodborne Pathogen Standard of California Division of Occupational Safety and Health (CCR Title 8, Section 5193).
 - ✓ Training provides a copy and explanation of any local body art bloodborne pathogen ordinances.
 - ✓ Training covers transmission, control and symptoms of bloodborne pathogen diseases.
 - ✓ Covers how specific tasks in body art practice can lead to exposure.
 - ✓ Covers personal protective equipment (PPE) use and limitations.
 - ✓ Covers task type, technique, and when to put on PPE in the process.
 - ✓ Covers hand hygiene with demonstrations.
 - ✓ Covers types, use and storage of disinfectants and antiseptics.
 - ✓ Covers signage and labeling required for biohazardous materials, chemicals and supplies.
 - ✓ Covers Hepatitis B vaccination information.
 - ✓ Covers what is an exposure incident including:
 - Examples of exposures, how the exposures occurred, and actions to prevent future exposures.
 - Risk of infection following an exposure.
 - Post-exposure procedures, including medical follow-up.
- Allows for question and answer time with the instructor.
