# **Frequently Asked Questions**

## **What is the CCHP formulary?**

The CCHP formulary (also known as the CCHP preferred drug list, or PDL) includes drugs used to treat common diseases or health problems. This formulary applies only to outpatient drugs and self-administered drugs – it does not apply to medications used in the inpatient setting or in medical offices.

The formulary is a continually reviewed and revised list of preferred medications based on safety, efficacy, and cost-effectiveness. It is updated on a monthly basis and is effective the first of every month. Updates are based on input from a team of doctors and pharmacists that meet regularly to decide which drugs should be included. These updates may include, but are not limited to the following: (i) removal or addition of drugs and/or dosage forms. (ii) changes in tier placement of a drug (iii) changes to utilization management restrictions (such as quantity limits, step therapy, etc.). Updated documents are available online at: <https://www.cchealth.org>.

## **How do I use the CCHP formulary?**

The list of formulary drugs begins on Page 1. To locate a drug on the formulary, simply look for the name of the drug in the index at the end of this booklet - the index lists all of the drugs on the formulary, including brand name and generic name. Once you have located the name of the drug in the index, you will see the page number where you can find more information about your drug listed next to it.

Instead of using the index, the formulary can also be searched by using ctrl+F to find a specific medication by brand name, generic name, or therapeutic class.

A mobile-enabled version of the CCHP formulary is also available using the ePocrates application. After you have downloaded the application to your mobile device, simply choose the “Contra Costa Health Plan-Commercial” formulary to display the formulary status of drugs within the application. If you have any questions about the installation or use of the Epocrates application, please contact Epocrates Customer Support at (800)230-2150 or [goldsupport@epocrates.com](mailto:goldsupport@epocrates.com).

The presence of a prescription drug on the CCHP formulary does not guarantee that a member will be prescribed that medication by his or her prescribing provider for a particular medical condition. The absence of a drug on the CCHP means that the drug

is not on the formulary, and will require prior authorization to be covered (specific information about the CCHP prior authorization process is located below in the section titled “What if the drug that I need isn’t listed on the CCHP formulary?”)

### **How are drugs listed on the formulary?**

Drugs are listed alphabetically by brand and generic name within the therapeutic category and class to which they belong. Brand name drugs will appear in all CAPITAL letters, with the generic name listed in parentheses after the brand name in all ***bold and italicized lowercase letters***. If a generic drug is available, it will be listed separately from the brand name drug, and will always be listed in ***bold and italicized lowercase letters***. If a generic equivalent of a brand name drug is not available, then the generic drug will not be listed separately from the brand name drug. In situations where an FDA approved generic equivalent is available, brand names are listed for reference purposes only, and do not denote coverage for the brand, unless specifically noted.

An example listing from the CCHP formulary is below:

Therapeutic Class	Drug Tier	
<b>Insulins - Drugs For Diabetes</b>		
LANTUS SOLOSTAR U-100 INSULIN ( <i>insulin glargine</i> )	T2	QL (30mL per 30 days)
Brand Name	Generic Name	Coverage Limits

### **What if the drug that I need isn’t listed on the CCHP formulary?**

If your drug isn’t listed on the CCHP formulary you can ask your doctor if there is a different drug on the formulary that will work the same way. If your doctor decides that you need a drug that is not on the formulary, they can ask CCHP to make an exception through the prior authorization process. All prior authorization requests will be evaluated by a health plan clinician (pharmacist or medical doctor) based upon CCHP prior authorization criteria that is approved by the CCHP Pharmacy and Therapeutics (P&T) committee. In instances where specific criteria do not exist, FDA indications, peer reviewed literature, other plan criteria, national treatment guidelines (such as IDSA, NCCN, AACE, etc.), and other medical compendia will be used for evaluation. Exceptions can be made for a variety of different reasons:

- Your doctor can ask CCHP to cover a drug that is listed on the formulary as requiring a prior authorization (PA): these drugs require approval prior to being dispensed at a network pharmacy. Each request will be reviewed by a health plan clinician, and if the request does not meet the guidelines established by the plan it will not be approved, and alternative therapy may be recommended.

- Your doctor can ask CCHP to cover a drug that isn't listed on the formulary: any drug not found on this list is considered non-formulary. Coverage for non-formulary agents may be requested by the prescriber. Each request will be reviewed by a health plan clinician, and approval will be given if a documented medical need exists and if there isn't an alternate agent on the formulary.
- Your doctor can ask CCHP to make an exception to limits on a drug. For example, if a drug has a limit of 1 tablet per day, your doctor can ask us to cover more. If quantities exceeding the limit are necessary, an exception to coverage may be requested by the prescriber. Each request will be reviewed by a health plan clinician, and approval will be given if a documented medical need exists without compromising safety.
- Your doctor can ask CCHP to make an exception to Step Therapy (ST) requirements: these drugs require one or more first step drugs to be tried before progressing to the second step drug (for example, if Drug A and Drug B both treat your health condition, CCHP may not cover Drug B unless you try Drug A first). If there is a medical need to use a second step drug without trying a first step drug, an exception to coverage may be requested by the prescriber. Each request will be reviewed by a health plan clinician, and approval will be given if a documented medical need exists. If you have already tried and failed the preferred drug(s), or if you are already taking a drug that is subject to step therapy when you switch to CCHP, you will not have to try the preferred drugs again. Your doctor can simply request an approval through the plan for continuation of therapy.

To start the CCHP prior authorization process or to ask for an exception, your doctor must fax a prior authorization request to CCHP at **1-866-428-7369** for urgent requests, or **1-866-205-8014** for standard requests. Your doctor may also be able to submit the request electronically to CCHP using the electronic medical record. If the request is approved, you will be able to get your medication filled at a pharmacy that works with CCHP. If we deny the request we will send you and your doctor a letter and will tell you how to file an appeal or a grievance. An "appeal" is when you want a decision to be reviewed again by the health plan (usually with additional information), and a "grievance" is a complaint or concern regarding the health plan.

CCHP will make a decision to deny or approve all prior authorization and exception requests within 24 hours of receiving the request. If CCHP fails to respond to a prior authorization or step therapy request within 72 hours of receiving a non-urgent request or 24 hours of receiving a request based on exigent circumstances, the request shall be deemed approved.

CCHP will provide coverage pursuant to a non-urgent request for the duration of the prescription, including refills. CCHP will provide coverage, including refills, pursuant to a request based on exigent circumstances for the duration of the exigency.

If you would like to download the CCHP prior authorization form, it is available at:  
[https://cchealth.org/healthplan/pdf/performrx\\_medication\\_prior\\_auth\\_form.pdf](https://cchealth.org/healthplan/pdf/performrx_medication_prior_auth_form.pdf)

**What if I need my medication urgently – do pharmacies have the ability to fill emergency supplies of medication?**

Yes. To ensure that CCHP members have access to a sufficient supply of medications in emergency situations, CCHP has established an Emergency Supply Policy that allows pharmacists to use their clinical judgement to override claims that deny at the point of sale. When a pharmacist determines that a medication is medically necessary, they may enter an authorization code that allows them to fill a 5-day emergency supply of medication for any CCHP member. CCHP promotes the use of the Emergency Supply Policy through point-of-sale messaging.

Instead of using the 5-day Emergency Supply Policy, pharmacies may also choose to call the PerformRx provider call center at 877-234-4269 – representatives are available 24 hours per day, 365 days per year. Staff at the call center have the ability to override prescriptions based on guidance provided by CCHP.

**What if I'm a new CCHP member?**

If you are a new CCHP member you may be taking drugs that are not on our formulary, or you may be taking drugs that are on our formulary but have limits. If possible, you should talk to your doctor to see if you can change to a preferred drug on the CCHP formulary. If you cannot switch to a preferred drug, then your doctor will need to ask CCHP for an exception to cover a drug you have been taking (known as continuation of therapy). See the section above titled “What if the drug that I need isn’t listed on the CCHP formulary?” for more information.

**Does CCHP cover generic and brand name medications?**

CCHP covers brand and generic drugs, but when a generic drug is available CCHP requires that it be used. All drugs that become available generically are subject to review by the CCHP Pharmacy & Therapeutics committee.

A prescriber may request a brand name product in lieu of an approved generic if the prescriber determines that there is a documented medical need for the brand equivalent. This type of request for coverage may be made through the CCHP prior authorization process described above in the section titled “What if the drug that I need isn’t listed on the CCHP formulary.”

**Are there drugs that are excluded from coverage?**

For the CCHP Basic Healthcare pharmacy benefit, there are no prescription medications that are excluded for coverage. Your doctor can ask CCHP to cover a drug that isn’t listed on the formulary: any drug not found on this list is considered non-formulary. Coverage for non-formulary agents may be requested by the prescriber. Each request will be reviewed by a health plan clinician, and approval will be given if a documented medical need exists and if there isn’t an alternate agent on the formulary.

If CCHP's coverage is amended to exclude a drug that we have been covering and providing to you under your current coverage, we will continue to provide the drug if a plan physician continues to prescribe the drug for the same condition and for a use approved by the Food and Drug Administration.

### **Can I go to any pharmacy for my medication?**

No, members must use a pharmacy that is in the CCHP network. To find a network pharmacy, visit the CCHP website or call the health plan directly to have one of our member services or pharmacy staff help you locate a pharmacy near you (see section below titled "How do I find a pharmacy?").

### **How do I find a pharmacy?**

To find a pharmacy near you, visit the CCHP website at <https://cchealth.org/healthplan/>. Once you have navigated to the CCHP website, follow the directions below:

- (1) Scroll down and click on the "Search Doctors/Clinics/Pharmacies in My Area" button
- (2) Click on the red "Begin Your Search Here" button (a new window will pop up)
- (3) Click on the "Facility" tab, and choose "Pharmacy" as the facility type
- (4) Choose how you want to search (by zip code, distance, etc.)
- (5) Click "Find a Facility" - results will immediately show up (as a map and a list)

Be sure to show your CCHP Member ID card when you fill your prescriptions at the pharmacy.

Note: some medications are subject to limited distribution by the U.S. Food and Drug Administration. These types of drugs are called "specialty medications" because they require special handling, provider coordination, or special education that may not be

provided at your local pharmacy. CCHP has a contract with Walgreens to provide these types of medications. If you have specific questions about these types of drugs please contact the CCHP pharmacy unit directly.

### **What drugs are covered by CCHP?**

You can get the following drugs and other items when they are prescribed by your doctor and are medically necessary:

- Prescription drugs listed on the CCHP formulary
- Non-prescription drugs or over-the-counter drugs (such as cough/cold syrups, cough drops or aspirin) listed on the CCHP formulary
- Formulary diabetic supplies: insulin, insulin syringes, glucose test strips, lancets and lancet puncture devices, pen delivery systems, and blood glucose monitors
- FDA-approved birth control and contraceptives listed on the CCHP formulary
- Emergency contraception
- Epi-Pens, peak flow meters and spacers

### **Are intravenous (IV) and injectable drugs covered by CCHP?**

Yes, the CCHP formulary lists certain injectable products that are covered as a pharmacy benefit. CCHP also covers most other intravenous medications through the medical benefit. Medications that are generally covered through the medical benefit are those that are given in a doctor's office, clinic, or hospital setting. Requests for coverage of a medication through the medical benefit should be directed to the CCHP Utilization Management Department by downloading the medical referral form at <https://cchealth.org/healthplan/providers/> and faxing to (925) 313-6058 for routine requests or (925) 313-6458 for urgent requests.

Coverage of intravenous and injectable drugs through the pharmacy benefit are outlined below:

- Simple intravenous solutions: simple intravenous solutions are typically used for hydration therapy. Included are commercially available (non-compounded) solutions such as Normal Saline, Dextrose (up to 10% in Water) and Lactated Ringer's Solution; commercially prepared solutions of potassium chloride in such solutions are also included in this definition. Simple intravenous solutions should be billed using the product's National Drug Code (NDC) number.
- Parenteral nutrition solutions (TPN or hyperalimentation): restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when (IV) therapy with the same product was started before discharge. There is a maximum of 10 days supply per dispensing within this 10-day period. (Parenteral nutrition solutions are intravenously or intra-arterially administered nutritional products that typically are suspensions or solutions of amino acids or protein, dextrose, lipids, electrolytes, vitamin &/or mineral supplements and trace elements.) Adjuncts to

parenteral nutrition are other drugs which are physically mixed into a parenteral nutrition solution at any time prior to administration. Bill for these products as part of the parenteral nutrition billing. **Note:** Non-compounded products must be billed using the product's NDC number. Compounded solutions must be billed as a compound claim.

- Separately administered intravenous lipids: restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when (IV) therapy with the same product was started before discharge. There is a maximum of 10 days supply per dispensing within this 10-day period. Intravenous lipid solutions or suspensions that are administered separately from parenteral nutrition solutions (that is, are not physically mixed into the parenteral nutrition solution container) should be billed using the product's NDC number.
- Intravenous solutions of unlisted antibiotics: restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when IV therapy with the same antibiotic was started before discharge. There is a maximum of 10 days supply per dispensing within the 10-day period. **Note:** Non-compounded products must be billed using the product's NDC number. Compounded solutions must be billed as a compound claim.
- Intravenous solutions of other unlisted drugs: restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when IV therapy with the same drug was started before discharge. There is a maximum of 10 days supply per dispensing within the 10-day period. **Note:** Non-compounded products must be billed using the product's NDC number. Compounded solutions must be billed as a compound claim.

### **How Much I Will Pay for My Drugs?**

For all CCHP BHC members, you do not have to pay for covered services; medications are available with no copay.

### **Can providers make suggestions to CCHP to improve the formulary?**

Absolutely. The formulary is a tool to promote cost-effective prescription drug use. CCHP has made every attempt to create a document that meets all therapeutic needs, however the art of medicine makes this a formidable task. CCHP welcomes the participation of physicians, pharmacists, and ancillary medical providers in this dynamic process. Physicians and pharmacists are highly encouraged to direct any suggestions or comments to CCHP via e-mail at:

[cchp\\_pharmacy\\_director@hsd.cccounty.us](mailto:cchp_pharmacy_director@hsd.cccounty.us).

### **What if I need more information?**

For more information about your pharmacy benefits, please review your Evidence of Coverage documents or call CCHP directly to discuss. CCHP member services department and pharmacy department staff are available to answer questions Monday through Friday from 8:00am to 5:00pm Pacific Time at the phone numbers listed below:

CCHP Member Services Department: **(877) 661-6230 x2**

CCHP Pharmacy Department: **(877) 661-6230 x3**

## **Definitions & Abbreviations:**

There are a number of terms that are used in this document that Contra Costa Health Plan wants to make sure that you understand. Below are some definitions and abbreviations:

**“Brand name drug”** is a drug that is marketed under a proprietary, trademark protected name. The brand name drug is listed in all CAPITAL letters.

**“Coinsurance”** is a percentage of the cost of a covered health care benefit that an enrollee pays after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.

**“Copayment”** is a fixed dollar amount that an enrollee pays for a covered health care benefit after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.

**“Deductible”** is the amount an enrollee pays for covered health care benefits before the enrollee's health plan begins payment for all or part of the cost of the health care benefit under the terms of the policy.

**“Drug Tier”** is a group of prescription drugs that corresponds to a specified cost sharing tier in the health plan's prescription drug coverage. The tier in which a prescription drug is placed determines the enrollee's portion of the cost for the drug.

**“Enrollee”** is a person enrolled in a health plan who is entitled to receive services from the plan. All references to enrollees in this formulary template shall also include subscribers as defined in this section below.

**“Exception request”** is a request for coverage of a prescription drug. If an enrollee, his or her designee, or prescribing healthcare provider submits an exception request for coverage of a prescription drug, the health plan must cover the prescription drug when the drug is determined to be medically necessary to treat the enrollee's condition.

**“Exigent circumstances”** are when an enrollee is suffering from a health condition that may seriously jeopardize the enrollee's life, health, or ability to regain maximum function, or when an enrollee is undergoing a current course of treatment using a non-formulary drug.

**“Formulary”** is the complete list of drugs preferred for use and eligible for coverage under a health plan product, and includes all drugs covered under the outpatient prescription drug benefit of the health plan product. Formulary is also known as a prescription drug list,

**“Generic drug”** is the same drug as its brand name equivalent in dosage, safety, strength, how it is taken, quality, performance, and intended use. A generic drug is listed in ***bold and italicized lowercase*** letters.

**“Nonformulary drug”** is a prescription drug that is not listed on the health plan's formulary.

**“Out-of-pocket cost”** are copayments, coinsurance, and the applicable deductible, plus all costs for health care services that are not covered by the health plan.

**“Prescribing provider”** is a health care provider authorized to write a prescription to treat a medical condition for a health plan enrollee.

**“Prescription”** is an oral, written, or electronic order by a prescribing provider for a specific enrollee that contains the name of the prescription drug, the quantity of the prescribed drug, the date of issue, the name and contact information of the prescribing provider, the signature of the prescribing provider if the prescription is in writing, and if requested by the enrollee, the medical condition or purpose for which the drug is being prescribed.

**“Prescription drug”** is a drug that is prescribed by the enrollee's prescribing provider and requires a prescription under applicable law.

**“Prior Authorization”** is a health plan's requirement that the enrollee or the enrollee's prescribing provider obtain the health plan's authorization for a prescription drug before the health plan will cover the drug. The health plan shall grant a prior authorization when it is medically necessary for the enrollee to obtain the drug.

**“Step therapy”** is a process specifying the sequence in which different prescription drugs for a given medical condition and medically appropriate for a particular patient are prescribed. The health plan may require the enrollee to try one or more drugs to treat the enrollee's medical condition before the health plan will cover a particular drug for the condition pursuant to a step therapy request. If the enrollee's prescribing provider submits a request for step therapy exception, the health plans shall make exceptions to step therapy when the criteria is met.

**“Subscriber”** means the person who is responsible for payment to a plan or whose employment or other status, except for family dependency, is the basis for eligibility for membership in the plan.

Additional abbreviations and terms used on the CCHP formulary document are explained below:

<b>Abbreviation</b>	<b>Term</b>	<b>What it means</b>
AL	Age Limit	Some drugs are only covered for certain ages.
NF	Non-Formulary	These drugs are not covered on the Drug List. If your doctor feels you need a drug that is not covered, he or she can ask us to make an exception.
PA	Prior Authorization	Your doctor must ask for approval from CCHP before some drugs will be covered.
QL	Quantity Limit	Some drugs are only covered for a certain amount.
SCO	State Carve-Out	These drugs are carved out by the Department of Health Care Services. This means these drugs are covered by the Medi-Cal Fee-for-Service program and must be billed to the State by the pharmacy.
ST	Step Therapy	In some cases, you must first try certain drugs before CalViva Health covers another drug for your medical condition.  For example, if Drug A and Drug B both treat your health condition, CCHP may not cover Drug B unless you try Drug A first.

The CCHP formulary uses a 3 tier structure – the tiers are explained below:

<b>Abbreviation</b>	<b>Term</b>	<b>What it means</b>
T1	Tier 1	Tier 1 medications are preferred on the CCHP formulary and are available without restriction or prior authorization.
T2	Tier 2	Tier 2 medications are preferred on the CCHP formulary and are available without prior authorization, BUT may have certain restrictions such as quantity limits, step therapy, etc. (the specific restrictions are listed on the CCHP formulary).
T3	Tier 3	Tier 3 medications are non-preferred. These medications require prior authorization.

# Plan de Salud de Contra Costa CCHP) ORGANIZACIÓN DE ADMINISTRACIÓN DE SALUD "Basic Healthcare" Formulario

Última actualización: 1 de junio de 2023

Nota: El formulario del CCHP está sujeto a cambios, y todas las versiones anteriores ya no están

vigentes.

- Para acceder a la versión electrónica del formulario del CCHP en el sitio web del plan de salud, visite la siguiente dirección web: <https://cchealth.org/healthplan/pdf/pdl.pdf>
- Para acceder a la herramienta de búsqueda del formulario interactivo del CCHP, visite la siguiente dirección web: <https://formularynavigator.com/Search.aspx?siteID=MMRREQ3QBC>
- Para acceder a la información de cobertura específica del plan que incluye información de costos compartidos, manual para miembros y otros materiales importantes como los documentos de su Evidencia de cobertura (EOC), visite la siguiente dirección web:  
<https://cchealth.org/healthplan/member-publications.php>

# **Preguntas frecuentes**

## **¿Qué es el formulario del CCHP?**

El formulario del CCHP (también conocido como la lista de medicamentos preferidos del CCHP, o PDL) incluye medicamentos utilizados para tratar enfermedades o problemas de salud comunes. Este formulario aplica solo a los medicamentos para pacientes en consulta externa y medicamentos autoadministrados, no aplica a medicamentos utilizados en el entorno de pacientes internados o en consultorios médicos.

El formulario es una lista de medicamentos preferidos examinada y revisada continuamente en función de la seguridad, eficacia y rentabilidad. Se actualiza mensualmente y es efectiva el primer día de cada mes. Las actualizaciones se basan en comentarios de un grupo de médicos y farmacéuticos que se reúnen regularmente para decidir qué medicamentos deben incluirse. Estas actualizaciones pueden incluir, entre otros, lo siguiente: (i) eliminación o adición de medicamentos o formas farmacéuticas, (ii) cambios en la colocación de nivel de un medicamento, (iii) cambios en las restricciones de administración de utilización (como límites de cantidad, tratamiento escalonado, etc.). Los documentos actualizados están disponibles en línea en: <https://www.cchealth.org>.

## **¿Cómo uso el formulario del CCHP?**

La lista de medicamentos de formulario comienza en la Página 1. Para ubicar un medicamento en el formulario, simplemente busque el nombre del medicamento en el índice al final de este folleto. El índice enumera todos los medicamentos en el formulario, incluidos los medicamentos de marca y los medicamentos genéricos. Una vez que haya ubicado el nombre del medicamento en el índice, verá el número de página en donde puede encontrar más información sobre el medicamento indicado junto a este.

En lugar de usar el índice, también se puede buscar en el formulario usando ctrl+F para encontrar un medicamento específico por marca, nombre genérico o clase terapéutica.

Una versión para teléfonos celulares del formulario del CCHP también está disponible usando la aplicación ePocrates. Después de que haya descargado la aplicación a su dispositivo móvil, simplemente elija el formulario “Plan de Salud de Contra Costa Medi-Cal” para mostrar el estado de formulario de los medicamentos en la aplicación. Si tiene alguna pregunta sobre la instalación o uso de la aplicación Epocrates, comuníquese con atención al cliente de Epocrates al (800)230-2150 o [goldsupport@epocrates.com](mailto:goldsupport@epocrates.com).

La presencia de un medicamento que requiere receta en el formulario del CCHP no garantiza que el proveedor que emite recetas le recete a un miembro ese medicamento para una afección médica particular.

Si un medicamento no está en el formulario del CCHP, requerirá una autorización previa para que esté cubierto (la información específica sobre el proceso de autorización previa del CCHP se encuentra a continuación en la sección titulada “¿Qué sucede si el medicamento que necesito no está en el formulario del CCHP?”)

### ¿Cómo se indican los medicamentos en el formulario?

Los medicamentos están indicados alfabéticamente por marca y nombre genérico en la categoría terapéutica y clase a la que pertenecen. Los medicamentos de marca aparecerán en MAYÚSCULAS, con el nombre genérico indicado en paréntesis después de la marca todo escrito en **letra minúscula negrita y cursiva**. Si el medicamento genérico está disponible, se indicará de forma separada del medicamento de marca y siempre se indicará en **letra minúscula negrita y cursiva**. Si un genérico equivalente de un medicamento de marca no está disponible, el medicamento genérico no estará indicado de forma separada del medicamento de marca. En situaciones en las que un equivalente genérico aprobado por la Administración de Alimentos y Medicamentos (Food & Drug Administration, FDA) está disponible, las marcas se indican con fines de referencia únicamente, y no denotan cobertura para la marca, a menos que se indique específicamente.

Una lista de ejemplo del formulario del CCHP se encuentra a continuación:

Clase terapeutica	Nivel de medicamento
<b>Insulins - Drugs For Diabetes</b>	
LANTUS SOLOSTAR U-100 INSULIN ( <i>insulin glargine</i> )	T2
<b>Marca</b>	<b>Nombre generico</b>
	<b>Limites de cobertura</b>
	QL (30mL per 30 days)

### ¿Qué sucede si el medicamento que necesito no está indicado en el formulario del CCHP?

Si su medicamento no figura en el formulario del CCHP, puede preguntarle a su médico si hay un medicamento diferente en el formulario que funcione de la misma manera. Si su médico decide que necesita un medicamento que no está en el formulario, puede pedirle al CCHP que haga una excepción a través del proceso de autorización previa. Todas las solicitudes de autorización previa serán evaluadas por un médico del plan de salud (farmacéutico o médico) según los criterios de autorización previa del CCHP

aprobados por el comité de Farmacia y Terapéutica (P&T) del CCHP. En los casos en que no existan criterios específicos, se utilizarán para la evaluación indicaciones de la FDA, literatura revisada por pares, otros criterios del plan, pautas nacionales de tratamiento (como IDSA, NCCN, AACE, etc.) y otros compendios médicos. Se pueden hacer excepciones por una variedad de motivos diferentes:

- Su médico puede pedirle al CCHP que cubra un medicamento que figura en el formulario que requiere una autorización previa (PA): estos medicamentos requieren aprobación antes de ser despachados en una farmacia de la red. Cada solicitud será revisada por un médico del plan de salud, y si la solicitud no cumple con las pautas establecidas por el plan, no será aprobada, y se puede recomendar una terapia alternativa.
- Su médico puede pedirle al CCHP que cubra un medicamento que no figura en el formulario: cualquier medicamento que no se encuentre en esta lista se considera no incluido en el formulario. La persona que emite la receta puede solicitar cobertura para agentes que no figuran en el formulario. Cada solicitud será revisada por un médico del plan de salud y se aprobará si existe una necesidad médica documentada y si no hay un agente alternativo en el formulario.
- Su médico puede pedirle al CCHP que haga una excepción a los límites de un medicamento. Por ejemplo, si un medicamento tiene un límite de 1 tableta por día, su médico puede pedirnos que cubramos más. Si se necesitan cantidades que exceden el límite, la persona que emite la receta puede solicitar una excepción a la cobertura. Cada solicitud será revisada por un médico del plan de salud y se aprobará si existe una necesidad médica documentada sin comprometer la seguridad.
- Su médico puede pedirle al CCHP que haga una excepción a los requisitos de tratamiento escalonado (ST): estos medicamentos requieren que se prueben uno o más medicamentos de primer paso antes de pasar al medicamento de segundo paso (por ejemplo, si el medicamento A y el medicamento B tratan su afección de salud, el CCHP puede no cubrir el medicamento B a menos que primero pruebe el medicamento A). Si existe una necesidad médica de usar un medicamento de segundo paso sin probar un medicamento de primer paso, la persona que emite la receta puede solicitar una excepción a la cobertura. Cada solicitud será revisada por un médico del plan de salud y se aprobará si existe una necesidad médica documentada. Si ya probó el medicamento preferido y este falló, o si ya está tomando un medicamento sujeto a tratamiento escalonado cuando se cambia al CCHP, no tendrá que probar los medicamentos preferidos nuevamente. Su médico simplemente puede solicitar una aprobación a través del plan para la continuación del tratamiento.

Para comenzar el proceso de autorización previa del CCHP o para solicitar una excepción, su médico debe enviar por fax una solicitud de autorización previa al CCHP al **1-866-428-7369** para solicitudes urgentes, o **1-866-205-8014** para solicitudes

estándar. Su médico también puede enviar la solicitud electrónicamente al CCHP utilizando la historia clínica electrónica. Si se aprueba la solicitud, podrá surtir su medicamento en una farmacia que trabaje con el CCHP. Si denegamos la solicitud, le enviaremos una carta a usted y a su médico y le diremos cómo presentar una apelación o una queja formal. Una "apelación" es cuando desea que el plan de salud revise nuevamente una decisión (generalmente con información adicional), y una "queja formal" es una queja o inquietud relacionada con el plan de salud.

El CCHP tomará la decisión de denegar o aprobar todas las solicitudes de autorización previa y de excepción dentro de las 24 horas posteriores a la recepción de la solicitud. Si el CCHP no responde a una autorización previa o solicitud de tratamiento escalonado dentro de las 72 horas de haber recibido una solicitud no urgente o 24 horas después de recibir una solicitud basada en circunstancias exigentes, la solicitud se considerará aprobada.

El CCHP proporcionará cobertura de conformidad con una solicitud no urgente por la duración de la receta, incluidos los resurtidos. El CCHP proporcionará cobertura, incluidos los resurtidos, de conformidad con una solicitud basada en circunstancias exigentes por la duración de la exigencia.

Si desea descargar el formulario de autorización previa del CCHP, está disponible en: [https://cchealth.org/healthplan/pdf/performrx\\_medication\\_prior\\_auth\\_form.pdf](https://cchealth.org/healthplan/pdf/performrx_medication_prior_auth_form.pdf)

¿Qué sucede si necesito mi medicamento con urgencia? ¿Las farmacias tienen la capacidad de surtir suministros de medicamentos de emergencia?

Sí. Para garantizar que los miembros del CCHP tengan acceso a un suministro suficiente de medicamentos en situaciones de emergencia, el CCHP ha establecido una Política de suministros de emergencia que permite a los farmacéuticos utilizar su criterio clínico para anular los reclamos que rechazan en el punto de venta. Cuando un farmacéutico determina que un medicamento es médicalemente necesario, puede ingresar un código de autorización que le permita surtir un suministro de medicamentos de emergencia para 5 días para cualquier miembro del CCHP. El CCHP promueve el uso de la Política de suministros de emergencia a través de mensajes en el punto de venta.

En lugar de utilizar la Política de suministros de emergencia para 5 días, las farmacias también pueden optar por llamar al centro de llamadas del proveedor de PerformRx al 877-234-4269; los representantes están disponibles las 24 horas del día, los 365 días del año. El personal del centro de llamadas tiene la capacidad de anular las recetas en función de la orientación proporcionada por el CCHP.

¿Qué sucede si soy un miembro nuevo del CCHP?

Si es un miembro nuevo del CCHP, puede estar tomando medicamentos que no están en nuestro formulario, o puede estar tomando medicamentos que están en nuestro formulario, pero que tienen límites. Si es posible, debe hablar con su médico para ver si puede cambiar a un medicamento preferido en el formulario del CCHP. Si no puede cambiarse a un medicamento preferido, entonces su médico deberá solicitarle al CCHP una excepción para cubrir un medicamento que ha estado tomando (conocido como continuación del tratamiento). Consulte la sección anterior titulada "¿Qué sucede si el medicamento que necesito no figura en el formulario del CCHP?" para obtener más información.

#### ¿El CCHP cubre medicamentos genéricos y de marca?

El CCHP cubre medicamentos de marca y genéricos, pero cuando hay un medicamento genérico disponible, el CCHP requiere que se use. Todos los medicamentos que están disponibles genéticamente están sujetos a revisión por parte del comité de Farmacia y Terapéutica del CCHP.

Una persona que emite una receta puede solicitar un producto de marca en lugar de un genérico aprobado si determina que existe una necesidad médica documentada del equivalente de marca. Este tipo de solicitud de cobertura se puede realizar a través del proceso de autorización previa del CCHP descrito anteriormente en la sección titulada "¿Qué sucede si el medicamento que necesito no está indicado en el formulario del CCHP?"

#### ¿Hay medicamentos que están excluidos de la cobertura?

El formulario de Medi-Cal del CCHP es muy similar a la Lista de Medicamentos con Contrato de Medi-Cal de California. Los siguientes tipos de medicamentos generalmente no son un beneficio cubierto para los miembros de Medi-Cal (tenga en cuenta que esta lista está sujeta a cambios):

- Medicamentos para la disfunción eréctil o sexual
- Medicamentos utilizados por razones estéticas o crecimiento del cabello
- Medicamentos que se consideran experimentales, o que se usan de manera experimental
- Medicamentos utilizados para tratar la infertilidad
- Medicamentos específicamente enumerados como "no cubiertos" en el formulario
- Medicamentos extranjeros o medicamentos no aprobados por la Administración de Alimentos y Medicamentos de los Estados Unidos (FDA)

Si se modifica la cobertura del CCHP para excluir un medicamento que hemos estado cubriendo y proporcionándole bajo su cobertura actual, continuaremos proporcionándole el medicamento si un médico del plan continúa recetándolo para la misma afección y para un uso aprobado por la Administración de Alimentos y Medicamentos.

Algunos medicamentos están excluidos por el Departamento de Servicios de Atención Médica. Esto significa que estos medicamentos están cubiertos por el programa de

pago por servicio de Medi-Cal para miembros de Medi-Cal, no por el CCHP. Los siguientes tipos de medicamentos están excluidos:

- Medicamentos antipsicóticos
- Medicamentos para el VIH/sida
- Medicamentos exclusivos para el tratamiento de desintoxicación y dependencia del alcohol y heroína
- Medicamentos exclusivos para tratar la hemofilia

#### ¿Puedo ir a cualquier farmacia por mi medicamento?

No, los miembros deben usar una farmacia que esté en la red del CCHP. Para encontrar una farmacia de la red, visite el sitio web del CCHP o llame al plan de salud directamente para que uno de los miembros del personal de servicios para miembros o de farmacia le ayuden a ubicar una farmacia cercana (consulte la sección a continuación titulada “¿Cómo encuentro una farmacia?”).

#### ¿Cómo encuentro una farmacia?

Para encontrar una farmacia cercana, visite el sitio web del CCHP en <https://cchealth.org/healthplan/>. Una vez que haya navegado al sitio web del CCHP, siga las instrucciones a continuación:

- (1) Desplácese hacia abajo y haga clic en el botón "Buscar médicos/clínicas/farmacias en mi área" (Search Doctors/Clinics/Pharmacies in My Area)
- (2) Haga clic en el botón rojo "Comenzar aquí" (Begin Your Search Here) (se abrirá una nueva ventana)
- (3) Haga clic en la pestaña "Instalaciones" (Facility) y elija "Farmacia" (Pharmacy) como tipo de instalación
- (4) Elija cómo desea buscar (por código postal, distancia, etc.)
- (5) Haga clic en "Buscar una instalación" (Find a Facility): los resultados aparecerán inmediatamente (como un mapa y una lista)

Asegúrese de mostrar su tarjeta de identificación de miembro del CCHP cuando surta sus recetas en la farmacia.

Nota: algunos medicamentos están sujetos a una distribución limitada por parte de la Administración de Alimentos y Medicamentos de EE. UU. Estos tipos de medicamentos se denominan "medicamentos de especialidad" porque requieren un manejo especial, coordinación de proveedores o instrucciones especiales que es posible que su farmacia local no le proporcione. El CCHP tiene un contrato con Walgreens para proporcionar este tipo de medicamentos. Si tiene preguntas específicas sobre este tipo de medicamentos, comuníquese directamente con la unidad de farmacia del CCHP.

#### ¿Qué medicamentos están cubiertos por el CCHP?

Usted puede obtener los siguientes medicamentos y otros artículos cuando los haya recetado su médico y sean médicaamente necesarios:

- Medicamentos recetados que figuran en el formulario del CCHP
- Medicamentos sin receta o medicamentos de venta libre (como jarabes para la tos/resfrío, pastillas para la tos o aspirina) mencionados en el formulario del CCHP
- Suministros para diabéticos del formulario: insulina, jeringas de insulina, tiras reactivas de glucosa, lancetas y dispositivos de punción de lancetas, sistemas de administración de plumas y monitores de glucosa en sangre
- Anticonceptivos aprobados por la FDA que figuran en el formulario del CCHP
- Anticoncepción de emergencia
- Epipens, medidores de flujo máximo y espaciadores

#### ¿Los medicamentos intravenosos (IV) e inyectables están cubiertos por el CCHP?

Sí, el formulario del CCHP enumera ciertos productos inyectables que están cubiertos como un beneficio de farmacia. El CCHP también cubre la mayoría de los demás medicamentos intravenosos a través del beneficio médico. Los medicamentos que generalmente están cubiertos a través del beneficio médico son aquellos que se administran en el consultorio de un médico, clínica u hospital. Las solicitudes de cobertura de un medicamento a través del beneficio médico deben dirigirse al Departamento de Administración de Utilización del CCHP descargando el formulario de referencia médica en <https://cchealth.org/healthplan/providers/> y enviando un fax al (925) 313-6058 para solicitudes de rutina o (925) 313-6458 para solicitudes urgentes.

La cobertura de medicamentos intravenosos e inyectables a través del beneficio de farmacia se detalla a continuación:

- Soluciones intravenosas simples: las soluciones intravenosas simples normalmente se usan para la terapia de hidratación. Se incluyen soluciones comercialmente disponibles (no compuestas) como solución salina normal, dextrosa (hasta 10% en agua) y solución de ringer lactato; las soluciones de cloruro de potasio preparadas comercialmente en tales soluciones también se incluyen en esta definición. Las soluciones intravenosas simples se deben facturar utilizando el número del Código Nacional de Medicamentos (National Drug Code, NDC) del producto.
- Soluciones de nutrición parenteral (TPN o hiperalimentación): restringidas para dispensar dentro de los 10 días posteriores al alta hospitalaria de un hospital de cuidados agudos, cuando se inició la terapia (IV) con el mismo producto antes del alta. Hay un suministro máximo para 10 días por dispensación dentro de este período de 10 días. (Las soluciones de nutrición parenteral son productos nutricionales administrados por vía intravenosa o intraarterial que suelen ser suspensiones o soluciones de aminoácidos o proteínas, dextrosa, lípidos, electrolitos, suplementos vitamínicos y/o minerales y oligoelementos). Los complementos a la nutrición parenteral son otros medicamentos que se mezclan físicamente con una solución de nutrición parenteral en cualquier momento antes de

la administración. Facture estos productos como parte de la facturación de nutrición parenteral. **Nota:** Los productos no compuestos deben facturarse utilizando el número NDC del producto. Las soluciones compuestas deben facturarse como un reclamo compuesto.

- Lípidos intravenosos administrados por separado: restringidos para ser dispensados dentro de los 10 días posteriores al alta hospitalaria de un hospital de cuidados agudos, cuando la terapia (IV) con el mismo producto se haya iniciado antes del alta. Hay un suministro máximo para 10 días por dispensación dentro de este período de 10 días. Las soluciones o suspensiones de lípidos intravenosos que se administran por separado de las soluciones de nutrición parenteral (es decir, no se mezclan físicamente en el recipiente de la solución de nutrición parenteral) deben facturarse utilizando el número NDC del producto.
- Soluciones intravenosas de antibióticos no incluidos en la lista: restringidas para ser dispensadas dentro de los 10 días posteriores al alta hospitalaria de un hospital de cuidados agudos, cuando la terapia IV con el mismo antibiótico se haya iniciado antes del alta. Hay un suministro máximo para 10 días por dispensación dentro del período de 10 días. **Nota:** Los productos no compuestos deben facturarse utilizando el número NDC del producto. Las soluciones compuestas deben facturarse como un reclamo compuesto.
- Soluciones intravenosas de otros medicamentos no indicados en la lista: restringidas para ser dispensadas dentro de los 10 días posteriores al alta hospitalaria de un hospital de cuidados agudos, cuando la terapia IV con el mismo medicamento se haya iniciado antes del alta. Hay un suministro máximo para 10 días por dispensación dentro del período de 10 días. **Nota:** Los productos no compuestos deben facturarse utilizando el número NDC del producto. Las soluciones compuestas deben facturarse como un reclamo compuesto.

#### ¿Cuánto pagaré por mis medicamentos?

Los miembros de Medi-Cal del CCHP **no** tienen que pagar los servicios cubiertos; los medicamentos están disponibles sin copago.

Los miembros comerciales del CCHP (con planes como el plan comercial A, el plan B, IHSS, etc.) pueden tener que pagar pequeños copagos por sus medicamentos. Consulte los materiales de su plan para determinar si tiene un copago.

#### ¿Los proveedores pueden hacer sugerencias al CCHP para mejorar el formulario?

Por supuesto que sí. El formulario es una herramienta para promover el uso rentable de medicamentos recetados. El CCHP ha hecho todo lo posible para crear un documento que satisfaga todas las necesidades terapéuticas; sin embargo, el arte de la medicina hace que esta sea una tarea formidable. El CCHP agradece la participación de médicos, farmacéuticos y proveedores de servicios médicos auxiliares en este proceso dinámico. Se alienta a los médicos y farmacéuticos a dirigir

cualquier sugerencia o comentario al CCHP por correo electrónico a:  
[cchp\\_pharmacy\\_director@hsd.cccounty.us](mailto:cchp_pharmacy_director@hsd.cccounty.us).

**¿Qué puedo hacer si necesito más información?**

Para obtener más información sobre sus beneficios de farmacia, revise los documentos de su Evidencia de cobertura o llame al CCHP directamente para hablar sobre ellos. El departamento de servicios para miembros del CCHP y el personal del departamento de farmacia están disponibles para responder preguntas de lunes a viernes de 8 a.m. a 5 p.m., hora del Pacífico, en los números de teléfono que se detallan a continuación:

Departamento de Servicios a Miembros del CCHP: **(877) 661-6230 x2**

Departamento de Farmacia del CCHP: **(877) 661-6230 x3**

## **Definiciones y abreviaturas:**

En este documento, se usan varios términos que el Plan de Salud Contra Costa quiere asegurarse de que usted entienda. A continuación se presentan algunas definiciones y abreviaturas:

**“Medicamento de marca”** es un medicamento que se comercializa bajo un nombre patentado y protegido por marca registrada. El medicamento de marca aparece en todas las letras en MAYÚSCULAS.

**“Coseguro”** es un porcentaje del costo de un beneficio de atención médica cubierto que un afiliado paga después de que haya pagado el deducible, si se aplica un deducible al beneficio de atención médica, como el beneficio de medicamentos recetados.

**“Copago”** es un monto fijo en dólares que un afiliado paga por un beneficio de atención médica cubierto después de que haya pagado el deducible, si se aplica un deducible al beneficio de atención médica, como el beneficio de medicamentos recetados.

**“Deducible”** es el monto que un afiliado paga por los beneficios de atención médica cubiertos antes de que el plan de salud del afiliado comience a pagar la totalidad o parte del costo del beneficio de atención médica según los términos de la póliza.

**“Nivel de medicamento”** es un grupo de medicamentos recetados que corresponde a un nivel de costo compartido especificado en la cobertura de medicamentos recetados del plan de salud. El nivel en el que se coloca un medicamento recetado determina la parte del costo del medicamento para el afiliado.

**“Afiliado”** es una persona inscrita en un plan de salud que tiene derecho a recibir servicios del plan. Todas las referencias a los afiliados en esta plantilla del formulario también incluirán suscriptores como se define en esta sección a continuación.

**“Solicitud de excepción”** es una solicitud de cobertura de un medicamento recetado. Si un afiliado, su persona designada o el proveedor de atención médica que emite la receta presenta una solicitud de excepción para la cobertura de un medicamento recetado, el plan de salud debe cubrir el medicamento recetado cuando se determina que el medicamento es médicalemente necesario para tratar la afección del afiliado.

**“Circunstancias exigentes”** se producen cuando un afiliado sufre una afección de salud que puede poner en grave peligro la vida, la salud o la capacidad del afiliado de recuperar su función máxima, o cuando un afiliado se somete a un tratamiento actual con un medicamento que no figura en el formulario.

**“Formulario”** es la lista completa de medicamentos preferidos para su uso y elegibles para la cobertura de un producto del plan de salud, e incluye todos los medicamentos cubiertos bajo el beneficio de medicamentos recetados para pacientes ambulatorios del producto del plan de salud. El formulario también se conoce como una lista de medicamentos recetados,

**“Medicamento genérico”** es el mismo medicamento que su equivalente de marca en dosis, seguridad, concentración, cómo se toma, calidad, rendimiento y uso previsto. Un medicamento genérico aparece en ***letra minúscula negrita y cursiva***.

**“Medicamento que no figura en el formulario”** es un medicamento recetado que no figura en el formulario del plan de salud.

**“Costo de bolsillo”** son copagos, coseguros y el deducible aplicable, más todos los costos por servicios de atención médica que no están cubiertos por el plan de salud.

**“Proveedor que emite la receta”** es un proveedor de atención médica autorizado para emitir una receta médica para tratar una afección médica de un afiliado al plan de salud.

**“Receta”** es una orden oral, escrita o electrónica de un proveedor que emite recetas para un afiliado específico que contiene el nombre del medicamento recetado, la cantidad del medicamento recetado, la fecha de emisión, el nombre y la información de contacto del proveedor que receta, la firma del proveedor que emite recetas si la receta es por escrito, y si la persona inscrita lo solicita, la afección médica o el propósito para el cual se receta el medicamento.

**“Medicamento recetado”** es un medicamento recetado por el proveedor del afiliado que emite recetas y requiere una receta en virtud de la ley aplicable.

**“Autorización previa”** es un requisito del plan de salud de que el afiliado o el proveedor del afiliado que emite recetas obtenga la autorización del plan de salud para un medicamento recetado antes de que el plan de salud cubra el medicamento. El plan de salud otorgará una autorización previa cuando sea médicaamente necesario que el afiliado obtenga el medicamento.

**“Tratamiento escalonado”** es un proceso que especifica la secuencia en la que se receten diferentes medicamentos recetados para una afección médica determinada y médicaamente apropiados para un paciente en particular. El plan de salud puede requerir que el afiliado pruebe uno o más medicamentos para tratar la afección médica del afiliado antes de que el plan de salud cubra un medicamento en particular para la afección de conformidad con una solicitud de tratamiento escalonado. Si el proveedor que emite recetas al afiliado presenta una solicitud de excepción de tratamiento

escalonado, los planes de salud harán excepciones al tratamiento escalonado cuando se cumplan los criterios.

**“Suscriptor”** es la persona responsable del pago de un plan o cuyo empleo u otra circunstancia, excepto la dependencia familiar, es la base para la elegibilidad para la membresía en el plan.

A continuación se explican abreviaturas y términos adicionales utilizados en el documento del formulario del CCHP:

Abreviatura	Término	Qué significa
AL	Límite de edad	Algunos medicamentos solo están cubiertos para ciertas edades.
NF	No figura en el formulario	Estos medicamentos no están cubiertos en la Lista de medicamentos. Si su médico considera que necesita un medicamento que no está cubierto, puede solicitarnos que hagamos una excepción.
PA	Autorización previa	Su médico debe solicitar la aprobación del CCHP antes de que se cubran algunos medicamentos.
QL	Límite de cantidad	Algunos medicamentos solo están cubiertos para ciertas cantidades.
SCO	Exclusión estatal	Estos medicamentos están excluidos por el Departamento de Servicios de Atención Médica. Esto significa que estos medicamentos están cubiertos por el programa de tarifa por servicio de Medi-Cal y deben ser facturados al estado por la farmacia.
ST	Tratamiento escalonado	<p>En algunos casos, primero debe probar ciertos medicamentos antes de que CalViva Health cubra otro medicamento para su afección médica.</p> <p>Por ejemplo, si el Medicamento A y el Medicamento B tratan su afección de salud, es posible que el CCHP no cubra el Medicamento B a menos que pruebe el Medicamento A primero.</p>

El formulario del CCHP utiliza una estructura de 3 niveles; los niveles se explican a continuación:

Abreviatura	Término	Qué significa
-------------	---------	---------------

T1	Nivel 1	Los medicamentos de nivel 1 se prefieren en el formulario del CCHP y están disponibles sin restricción o autorización previa.
T2	Nivel 2	Los medicamentos de nivel 2 se prefieren en el formulario del CCHP y están disponibles sin autorización previa, PERO pueden tener ciertas restricciones, como límites de cantidad, tratamiento escalonado, etc. (las restricciones específicas se enumeran en el formulario del CCHP).
T3	Nivel 3	Los medicamentos de nivel 3 no son preferidos. Estos medicamentos requieren autorización previa.
